Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 16, 2002 has been entered.

Claim Rejections - 35 USC § 112

2. Claims 1-5, 11-15 and 21-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, for example, "a leading edge" is recited in line 5; however, it is unclear as to whether the leading edge recited in line 4 is referenced or an entirely different leading edge. Similar indefiniteness exists in claims 11 and 21.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined

Art Unit: 2652

was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Wada et al (US 6,144,529). Wada et al shows in figure 39 slider body 1 and first and second rails 110 and 120 extending in a longitudinal direction along body 1 where leading edges 111 and 121 of rails 110 and 120 are spaced from the leading edge of body 1. Wada et al also shows in figure 39 first structure 100 having a first depth and extending from the leading edge body 1 to leading edges 111 and 121 of first and second rails 110 and 120 and between first and second rails 110 and 120.

Second structure 130, additionally shown in figure 39 of Wada et al, has a second depth disposed adjacent to first structure 100 and between rails 110 and 120. The second depth is lower than the first depth. Further shown in figure 39 is structure 130 beginning (at 132) more than one-third of the length of body 1 from the leading edge of body 1.

Figure 39 of Wada et al shows compression pad 140 disposed proximately to a trailing edge of slider body 1, which has the same height as first and second rail 110 and 120. Pad 140 includes a third structure with a third depth that is the same as the first depth.

Response to Arguments

5. Applicant's arguments with respect to claims 1-30 have been considered but are moot in view of the new ground(s) of rejection.
